PROJECTS

Narrative® – UI/UX Design Portfolio Website | React, UI Design, Component Systems, Responsive Design, HTML, CSS, JavaScript

- Built a responsive UI/UX portfolio website showcasing design case studies across eight creative categories.
- Developed reusable React components, project filters, search, and detailed case-study layouts for every project.
- Designed to present product thinking, visual design systems, and polished interface work in one place.
- Applied visual hierarchy, consistent typography and spacing, and mobile-first layouts for a seamless experience across devices.
- Structured information architecture and navigation so visitors can quickly discover, filter, and explore projects.

AI-Powered Multi-Agent Business Assistant | React.js, Spring Boot, Java 21, MySQL, FastAPI, LangChain4j

- Designed and developed a responsive analytics dashboard and AI chatbot interface with a focus on clean layout, clear data presentation, and intuitive navigation.
- Built a full-stack platform with React, Spring Boot, and FastAPI; implemented JWT authentication and role-based access control (RBAC) for secure multi-user access.
- Developed sales forecasting and inventory prediction models (90%+ accuracy) and a RAG-based document assistant using LangChain4j and Ollama.

EXPERIENCE

Java Development Intern – CodSoft (Virtual Internship)

- Developed 5 Java desktop applications using Core Java, OOP, and the Collections Framework, implementing 20+ reusable classes with a modular architecture.
- Built user-focused applications including an ATM Interface, Student Management System, Grade Calculator, Currency Converter, and Number Guessing Game.
- Improved reliability and maintainability through File Handling and Exception Handling.
